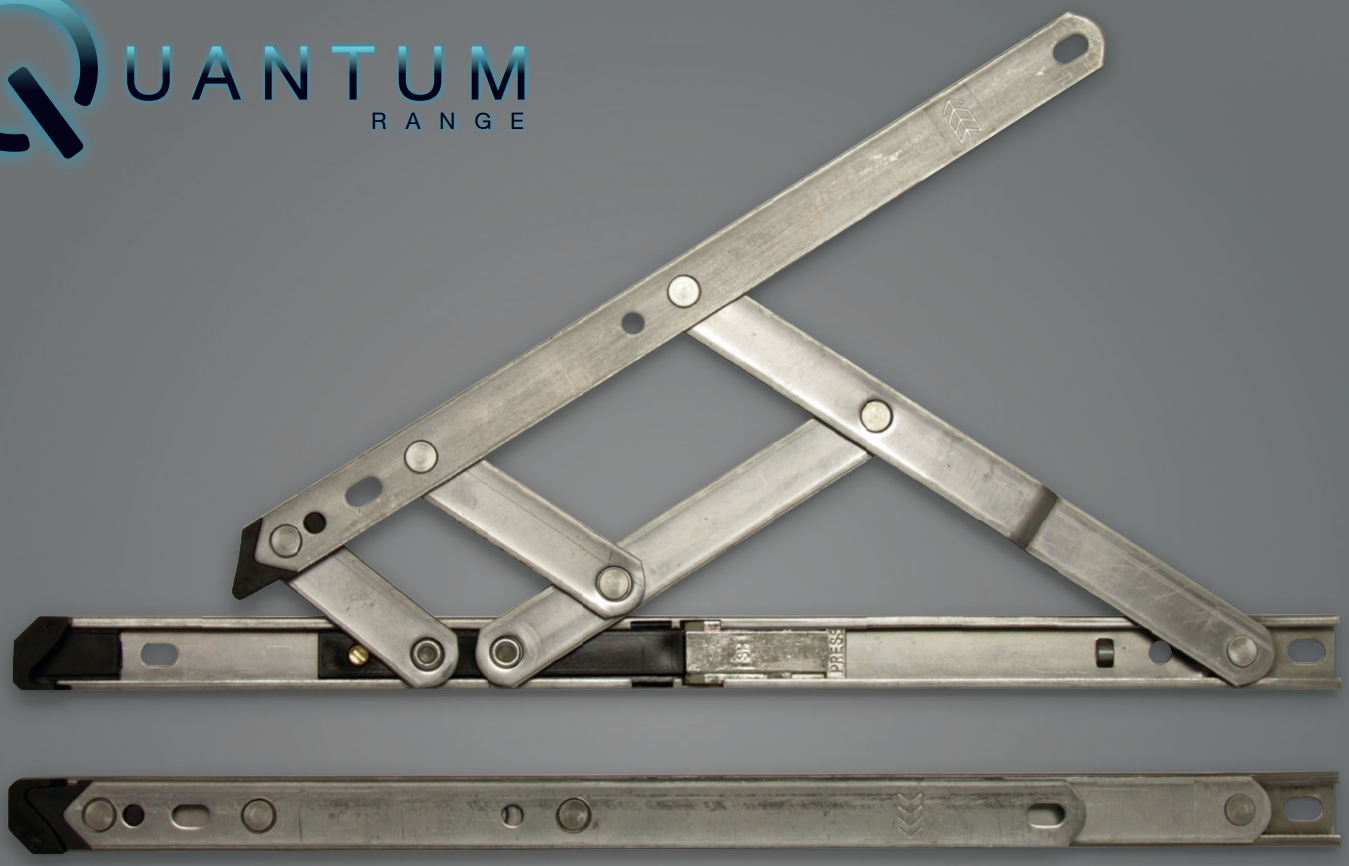
QUANTUM RANGE



ALL QUANTUM PRODUCTS HAVE THE TOTAL HARDWARE 10 YEAR GUARANTEE

Quantum Restrictor Friction Stays

Suitable for use with most uPVC, timber and aluminium windows, these friction stays feature a built-in catch that will limit the opening to 100mm, keeping young children safe, by preventing potential accidents.

The quick release function allows for the window to be opened at full capacity by adults, for ventilation and cleaning, and will automatically re-engage once closed. Quantum Restrictors are available in a variety of sizes for top and side hung applications, and are manufactured from high quality stainless steel.

Features and Specifications:

- Available in 8”, 10”, 12”, 16”, 20” and 24” format for top hung applications
- Available in 16”, 20” and 24” restricted format for top hung applications
- Available in 12” and 16” and restricted formats for side hung applications
- Window opening limited to a maximum of 100mm
- Quick release function allows for full opening of the window when needed
- Automatic re-engagement of the catch when the window is closed again
- Delivers enhanced safety levels
- Tested to 25,000 cycles
- Made from stainless steel
- 10 year mechanical guarantee
