

### PRODUCT DESCRIPTION

The Flush Sash Quad Lock features bi-directional locking cams for improved security performance, with additional cams to enable locking in the night vent position on flush windows. Combining high security with fast fitting and no cropping, the Quad Lock only requires simple compression adjustments. This lock is available in both left hand and right hand variants.

### PACKAGING

Each box contains 20 Flush Quad locks.

### MAINTENANCE

To maintain a high quality appearance and operation we recommend that all external hardware is cleaned routinely, and moving parts are lightly lubricated a minimum of twice a year. Products used within a 1 mile radius of coastal areas, building sites or large industrial areas, more regular cleaning will be required to prevent build up of corrosive contaminants.
