Summer 2025

# apex

## Welcome to the Summer edition of the Total Hardware Newsletter!

We're pleased to introduce the launch of our **new Apex range** – a premium collection of hardware solutions designed to deliver exceptional quality and performance.

As you may know, we've also moved into our **brand-new headquarters in Leeds**, a modern space that reflects our continued growth and ongoing commitment to supporting our customers.

**Read on** to discover what's new at Total Hardware – and what's coming next!

# Introducing the New Apex Stainless Steel Shootbolt

A next-gen window locking solution built for maximum security and performance.

- High-grade stainless steel for strength and durability.
- Optional Yale SensCheck™ compatibility.
- Corner drive option for wrap around locking on heavy-duty top-hung sashes, adding side locking points and improving window compression.
- Fits Standard, French, Flush and French Flush casement windows.
- One-piece zinc keep and corner drive option for ultimate security.

**10**  
YEAR  
Product  
Guarantee

Backed by a  
**10-year guarantee**,  
the Apex Shootbolt  
is designed for the  
demands of modern  
window systems –  
and it looks as good  
as it performs.

- Slim 28mm backplate.
- Strong fixings and spring assist for perfect alignment.
- Supplied with screws and spindles for 38–72mm doors.
- BS.EN:2007 Grade 5 tested.
- 10-year guarantee.

**Available in:** White, Black, Chrome, Gold, Satin Silver, Flint, Tungsten, Grey and Antique Black.

## New SensCheck 2

Fabricators and installers can now take smart home security to the next level with Yale's new SensCheck 2.

Suitable for use on composite, PVC-U, bifold, and side doors, as well as PVC-u and aluminium windows for a total integration for smart modern homes. With real-time alerts, geofencing and voice assistant compatibility, SensCheck 2 empowers homeowners with visibility and control over their doors and windows—from anywhere. Plus, with BSI Kitemark IoT certification and Secured by Design approval, you can trust it's as secure as it is smart.
